NATIONAL SCIENCE WEEK STAGE SHOW

Eatons Hill State School celebrates National Science Week with the Street Science Stage Show: The Future of Foods.

In this gourmet event, students will investigate what's actually in the food we eat, and explore some of the delightful delicacies you might encounter in the restaurants of the future. Students will be amazed as our presenter shows us how to launch flying potatoes, use mushroom spores to create fireballs, and plate up some future foods designed in the lab! Students will walk away with a greater understanding of how the food industry has evolved over the years, from its humble beginnings in farms right into the realms of science fiction. Students will gain valuable insights about healthy eating habits and how they can meet their nutritional needs in a variety of ways.

Date: Tuesday 17th August
Cost: \$7.00
Payment Deadline: Wednesday 4th August

Please sign the Permission Form below and return to the classroom teacher. You will receive an invoice for this activity by email. Please ensure your payment is returned by the Payment Deadline above to ensure your child's participation in this activity.

Payment can be made by BPoint using the link on your Invoice, by the QParent App if you are registered, or in person at the school office via cash, EFTPOS or cheque.

NO LATE PAYMENTS WILL BE ACCEPTED
