MEDICATION

The Department recognises that all medications, including over-the-counter (OTC) medications, eg paracetamol or alternative medicines, may be drugs or poisons and may cause side effects. As such, schools are required to receive medical authorisation from a prescribing health practitioner (eg doctor, dentist, optometrist, but **not** a pharmacist) to administer any medication to students, including those bought over-the-counter.

If your child should require medication at school, a medication form available from the school office will need to be completed. The medication must have a label on it with the prescribing Doctors name, the child's name and required dosage.
