

Third Party Website Consent

Dear Parent/Guardian,

The use of web based educational resources has risen steadily over the last decade and are increasingly being used by teachers across Queensland to improve student learning outcomes. Our school and teachers make decisions about the best technology to meet the needs of our students. Sometimes it is beneficial for students to utilise services provided by third party web based providers. The Queensland Department of Education has undertaken risk assessments for each of these services or apps. Eatons Hill State School uses the third party web based service provider/s listed on the attached pages to aid students' learning.

For your child to access these services class teachers are required to register them as a user. Registering with these providers requires student personal information to be disclosed to the provider of the service. In the case of the services outlined below they are private companies that are hosted onshore in Australia/and/or/outside of Australia. Outside of Australia means that data that is entered to register for these sites will be stored on servers that are not based in Australia and therefore are not bound by Queensland's privacy laws. Registration may include disclosing the following information about your student:

- Students First Name and first Initial of Last Name,
- Year group,
- Class Teacher

It is now an expectation of the department that schools collect share this information and collect parental permission for the registration and use of these sites by your child. We have included all relevant apps currently being used, or expected to be used in the foreseeable future, at Eatons Hill State School in the attached list.

Note: It is not compulsory for you to provide this consent – If you decide not to provide consent, this will not adversely affect academic achievement, or any relationships with teachers or the school.

Before you complete this consent form it is important that you understand the reasons that these websites collect this information, what will be done with it, who else may have access to it and where the data is stored. This information can be found in the hyperlinks below referring to each website's terms and conditions and/or privacy policy.

Please read these and ensure that you understand the implications of using this service before giving your consent.

Yours sincerely,

Mr Hugh Goodfellow
Principal
